
Administrative Memorandum

Regular Board Meeting

Date: June 12, 2019
Topic: Carbon Neutral Action Report
Submitted by: Greg Frank, Secretary-Treasurer

Background:

Each year since 2010, all public sector organizations in BC have been required to be carbon neutral. This means that since 2010, Surrey Schools has maintained a net impact of zero greenhouse gas (GHG) emissions with respect to operations.

The Carbon Neutral Action Report (CNAR) is an annual report through which all provincial public sector organizations (PSOs) publicly disclose details related to their achievement of carbon neutrality. The CNAR report provides a record of Surrey Schools' 2018 greenhouse gas emissions, offset purchases, reduction actions and plans for continued reduction of emissions in the future. Surrey Schools also uses the CNAR as an opportunity to highlight other sustainability actions in the district. Attached is the 2018 CNAR for Surrey Schools.

It is recommended:

THAT the Board of Education receive the 2018 Carbon Neutral Action Report for information as presented.
